SUMMARY OF INFORMATION

The focus is on the Middle East situation. There are hills (dunes), buildings and land located at the target site. Within the dunes something is hidden (stored) from view. See attached sketch. Explosion/firing is present. Something is concealed and held for release. Themes include capturing, disembodiment and money. The activity is a mission oriented plan of action to include structuring/restructuring/organization/alignment and movement of troops for ground boundaries (armament). Camouflage is utilized here and guns are firing. The activity is that this is a physical loading department for aggression arrest. A leader (human profile) is at the site. Planes and trucks are utilized within the scheme of things. This involves charting a course for future action on the part of the Middle East.

In general, the mission involves air movement, independent action, and peaceful resolutions. The activity is for structuring limitations and restrictions on armament through guided forces and captivity.
